## **Supporting our clients and workforce during the spread of COVID-19 – Update 31<sup>st</sup> March 2020**

The COVID-19 situation is rapidly changing and as an agile single site business, we are quickly adapting our work processes to meet these changes. Science is on the case and it is vital that we do our part to support the global efforts in finding solutions whilst doing all we can to contain the spread of infection. My key message to our valued customers is that we remain open for business at this challenging time, we have seen little absenteeism and no critical disruptions to our supply chain or service contractors. I would like to thank our loyal customers, suppliers, contractors and their staff for their ongoing support to us at this challenging time

I would like to thank all of our staff here at Arcinova for their dedication in response to the COVID-19 challenge. 70% of our staff are laboratory based and are therefore working on site, we have implemented stringent social distancing and sanitisation practices to ensure that we are fully meeting government guidance for working “at work”. Our staff that can are working “at home” and we have cancelled all business travel and non-essential visitors to the site. I am extremely proud of all our staff’s work ethic and the pace at which they have adapted to this “new normal”.

Finally, please continue to look after yourself and each other to stay safe and well. Should you need any further information please do not hesitate to reach out to either myself or your usual contact at Arcinova.

Roger Kilburn  
CEO
