

Q3 NEWSLETTER

CAPABILITIES

API

5L stream will be in place by August. 20L by November.

GC-MS

Arcinova is investing in GC-MS for analysis of volatiles. This will be up and running in September.

Biotage

Improving our column purification capabilities will shorten our delivery times to customers. In place by August.

NEW STARTERS

We welcome Richard Castledine from Fine Organics and Sam Bourne (ex-Novartis) to Paul Quigley's API Development team. We also welcome Nick Lavin from the University of Sunderland and Frances Brocklehurst from The Specials Laboratory to Martin Gray's CMC team.

CUSTOMERS

Arcinova continues to build on the customer base inherited from Covance. We now serve over 60 customers in Europe, the US and Asia.

Since the inception of Arcinova on 9th February we have hosted 27 client/partner visits and successfully completed one GLP and five GMP audits.

CONFERENCES

Ian Shott presented at the Business of Science Conference in Manchester in May. Mark Chadwick presented at the Bionow BioFocus conference and Paul Quigley presented at the NEPIC members conference, both in June.
